The immediate most pressing concerning in ur life

I usually experience severe pain during my menstrual cycle. It started when I was 14 yrs but it was better than now. The problem arose when I was turning 15. I began vomiting to an extent that I remain empty in my stomach. I visited to the doctors and I was given so many different types of medicines but I didn't see any change even now. I went to different Prophets but still it remains the same. I vomit very much until I vomit the acids in stomach with greenish colour. Right now I'm scared because this can ~~not~~ leave me to death. The doctors have gearded but they have found nothing. I was tested everything and the scan were taken but there's nothing.

Where do you think you will be in 5 yrs from now

I will be owning my own house, having my own car, designing different types of clothes since I want to be a designer and I'm sure I will be a well qualified designer. I will be an Accountant and doing athletic.

Are you employed learning in income: If so is this what you are happy with

I'm unemployed an employee but I'm not happy with it because I work over time but the income I get is less than the wants that is needed at our home most of the time I can't afford my needs.

What do you think will become of ur friends / peers

We will be very close with my friend because they are doing great things and now their levels are higher than me. We will be of same level since they motivate me to doing great things e.g Dressmaking. Some will be shocked because they look down upon myself and they will be motivated and want to be what I will be e.g Well qualified designer.

Can youth do something to bring about development

Yes youth can do something to bring development by working hard and have the spirit of what you are doing and believe in yourself.
